PROFILE

Civil Engineer turned growth marketer with 3+ years across organic search, partner outreach and AI content production for subscription software. I audit the search baseline, build the link and affiliate pipeline that moves it, then produce the content that fills it.

SKILLS

AI Content Generation

Sora 2, Veo, Kling, Seedance, Nano Banana, GPT Image, ElevenLabs (AI voice)

Editing & Post-Production

CapCut, Topaz, FFmpeg, photo/video enhancement

SEO & Analytics

Google Search Console, Ahrefs, GA4, WordPress, WooCommerce, Yoast; local SEO, technical audits, backlink acquisition, disavow, keyword prioritization

Marketing & Growth

Reddit, TikTok, Instagram, X/Twitter, Facebook; affiliate outreach, community engagement, subscriber conversion

Productivity & Technical

Google Workspace, MS Office, AutoCAD

EDUCATION

BS in Civil Engineering

University of Nueva Caceres, Naga City
2010 – 2016

EXPERIENCE

SEO Growth Specialist

Sep 2026 – Present

Plasmacutter · Freelance, Remote

- Local SEO for a New Zealand service business that sells pickups online: found 267 pages getting impressions in Search Console, including 27 pages competing for one topic.
- Got duplicate product pages merged with a 301, then rewrote the title and meta, linked it from six posts and requested reindexing; fixed price mismatches, and keep a weekly change tracker using the Search Console and GA4 APIs.

Growth Marketer

Jun 2026 – Present

xeve.ai · Remote

- Own organic search for the product: Search Console and Ahrefs audits, page and keyword prioritization, and backlink acquisition aimed at the highest-intent commercial pages.
- Identified and evidenced an active spam-link campaign against the domain and built the disavow file; audited GA4 and found 64% of key events unattributed, then made the tracking fix a precondition for paid spend.
- Run partner and affiliate outreach end to end across a 700+ site pipeline with 30+ placements live, and built the content engine behind a 211-post editorial calendar with a written SOP.

AI UGC Creator

Apr 2026 – Jun 2026

Miraflores · Remote

- Created realistic AI-generated UGC videos and images for short-form ad and social campaigns, building full pipelines across image generation, face/character consistency, video generation, AI voice, and post-production.
- Developed multi-scene content arcs around a locked base-model identity for consistent on-screen talent, working across Sora 2, Kling, Veo, Seedance and Nano Banana with ElevenLabs voice, finishing in CapCut and Topaz.

Marketing Virtual Assistant

Aug 2023 – Feb 2026

Nectar AI (TryNectarAI) · Remote

- Produced AI-generated images and roleplay content and published it across Reddit, Instagram, X/Twitter, TikTok, and other platforms for marketing campaigns.
- Grew audiences and engaged online communities to increase customers and convert them into paid subscribers.
- Created and managed multiple branded social media accounts across platforms.

Insurance Agent

Nov 2022 – Aug 2023

Pru Life UK

- Prospected warm and cold markets and conducted client meetings to assess insurance needs.
- Presented tailored insurance solutions, explained coverage and benefits, and closed sales to hit targets.

Technical Facilitator

Jul 2021 – Oct 2021

Kalahi-CIDSS · Dept. of Social Welfare and Development

- Provided technical advice and conducted site validation for prioritized community sub-projects.
- Reviewed engineering plans and prepared programs of work and cost estimates.
